

NVR

- Mstar SSR621Q platform
- Minimalism design, easy to operation
- Network video Input / Output Bandwidth:64Mbps/32Mbps
- Live Preview Capability: Up to 16ch * 8MP/ 5MP/ 4MP/3MP/2MP
- Synchronous Playback Capability: 1ch *8MP@30, 5MP@30; 4ch* 4MP@30,3MP@30; 6ch*1080p@30; 8ch*720p@30; 16ch*D1@30
- Support OnVif compatible with Third-party IPC, Support Uniview and HIK Vision Private Protocol
- Support Ultra 265 intelligent coding technology, Storage Space Save Half
- Support 1 x HDMI , 1 x VGA output simultaneously
- Support 1 x SATA interface, Hard Disk Max 10TB
- Support Two-way audio;
- Support Mobile APP: UYC (IOS , Android) , PC Client CMS/VMS:UYC Station
- Support Web side operation, SDK development; Customization(ODM, OEM), Manufacturer Name, Model Number ,Web/Channel/Boot Logo, Image scene, OSD, Default Alarm Audio even APP Customization
- Support UPnP (Universal Plug and Play) , DDNS (Dynamic Domain Name Resolution) , DHCP(Automatically Obtain IP Address)
- APP supports P2P , streaming media forwarding dual-mode connection, extremely fast and stable
- Supports remote debugging and maintenance of all NVR configurations across public networks
- UBS second-level storage technology, no video loss at the moment of power failure, continuous hard disk low fragmentation protection
